IT IS STILL ON.

The Big Railroad Strike in New York Continues, But Its Back Bone is Broken.

NEW YORK, Aug. 11.—Just after midnight this morning all the locomotive firemen (members of the brotherhood of locomotive firemen) on the Hudson River division of the New York Central and Hudson River railroad, joined the striking Knights of Labor who went out Friday night. This defection of firemen will, it is feared, completely block travel over the New York Central between this city and Albany, as the brotherhood of locomotive engineers are pledged not to run with any firemen except those belonging to the brotherhood of locomotive firemen.

It has been definitely decided to strike on the Lake Shore, Michigan Central and Michigan Southern to-day. It is determined to tie up all the main line of the Central all the way from New York to Chicago.

The New York Central officials say this morning that the firemen are still on duty and that none of them have deserted their posts.

At 3 o'clock this morning Inspector Byrnes was informed by the New York Central company that it was proposed to move the immense accumulation of freight which was stored on the tracks on the west side of the city from the freight depot in St. Johns' park to Seventy-ninth street and the North river. More than 2,000 loaded cars have accumulated on the west side tracks in both since the strike began at 7 o'clock on Friday night. It is the purpose of the company to move the cars by dummy engines to the freight yards at Sixty-fifth street and the Hudson river, where the trains will be taken north over the road by regular engines. The attempt will be made this afternoon. The police are on duty to prevent a disturbance.

An air of quietness prevailed in and about the Grand Central freight and passenger depots all through last night and this morning. No officials were seen about the depots all last night. Additional notices were posted about the yard, announcing the determination of the company to fight the strike and promising protection to all employes who remain at work. Milk cars came in during the night between one and three o'clock, but not as many as usual. Only 1,400 cans of milk were received. Usually 2,200 cans came in. The usual price of milk at the yard is from $1.40 to $1.50 per can. This morning it was sold at $1.75 per can. Nearly all the dealers were supplied and to-morrow it is expected all will be right and milk selling at the usual price.

Three passenger trains were run out this morning from the Grand Central depot. Brotherhood firemen and engineers were on duty, but General Committeeman Holland and Secretary Hayes, of the Knights, said they would go out in a few hours. No attempt was made by the Grand Central to run the regular New York and Harlem local trains, though some through trains stopped at the small stations. Two freight trains were got out of the Sixty-fifth street yard. One hundred and twenty-five policemen were on guard there, but the strikers made no demonstration. These freight trains were run by green hands.

Vice-president Webb, for the Vanderbilts, still refuses to submit the case to arbitration or to confer with the Knights of Labor. He said this morning that the backbone of the strike, so far as the New York end was concerned, was broken. He was, however, much concerned about the trouble at Syracuse and Albany.

Western railroad men have been brought on by the Vanderbilts to take the places of the strikers. Four new towermen were secured to take the places of those working on Saturday. Mr. Depew has not as yet sent any word with regard to the trouble on the road. None of the striking switchmen and yardmen returned to work on the West Shore this morning. The engineers and firemen stuck to their posts. The 5:25 freight train was got out, but Superintendent Williams said that no more freight would be moved until 8 o'clock to-night.

The trains on the New York, New Haven and Hartford road were all on time. At 8 o'clock the company dispatched a special for Boston, on board of which were the members of Grand Army post No. 14. They expect to reach Boston by 3 o'clock this afternoon.

An 8:10 passenger train rolled over the Harlem railroad on time and at 8:20 another passenger train left on the Central track. As the day wore on trains came in and went out pretty much as if there was no strike at all, and the general opinion of those not interested was that the back bone of the strike was broken. The trains arriving and departing were manned by western railroad men in most instances. The sum and substance of the situation was expressed by a striker who said, "unless the firemen and engineers join us we are lost."

BUFFALO, N. Y., Aug. 11.—The Central strike is still in progress here, though Buffalo does not seem to be so seriously affected as other points. There is, however, a bad blockade of freight in the yards, and mail and passengers are badly delayed.

SYRACUSE, N. Y., Aug. 11.—The situation of the great strike on the New York Central is not much changed this morning. All is quiet both here and at East Syracuse and the 200 militiamen quartered at the state armory, are being held for orders from Gov. Hill.

TROY, N. Y., Aug. 11.—Absolute quiet marks the progress of the strike in Troy. Trains are running in and out of the union depot regularly, and the places of the forty switchmen, flagmen and trackmen who quit Saturday are being filled as rapidly as possible. Fifty Pinkerton men arrived this morning.

ALBANY, N. Y., Aug. 11.—At 10:45 this morning twenty firemen on the Central went out, the engineers saying they will pull no train out with a green fireman as a helper.

SCRANTON, Pa., Aug. 11.—General Master Workman Powderly, in an interview last night, said he had received no word whatever from the seat of the strike. The general executive board will meet in Detroit Wednesday. He feels certain the Brotherhood of Locomotive Engineers will cast its fortunes with the Knights of Labor, if such action is deemed necessary.

TERRE HAUTE, Ind., Aug. 11.—Grand Master Sargent, of the brotherhood of locomotive firemen, received many telegrams from the New York Central strikers yesterday, asking him to go east, but he declined to take any official action in regard to the strike, saying that the brotherhood was not consulted in its inception and was not called upon to use its usual means of settling grievances with the railroad companies.

ARTHUR TALKS.

CLEVELAND, Ohio, Aug. 11.—Grand Chief P. M. Arthur, of the brotherhood of locomotive engineers, was asked this morning whether there was any probability of a strike of the engineers on the New York Central railroad. He replied: "I don't think there is the slightest probability of a strike. I have received no complaints and I don't think the engineers have any to make. The New York Central is generally looked upon by engineers to be about the best in the country to work for, and the men who are on it will probably stay.

"As far as our brotherhood is concerned, it has nothing in common with the firemen's or conductor's organizations, and will not be influenced by what they may do. The engagement of 'scab' firemen would not cause a strike among the engineers if there was no other cause for quitting work. The engineers must have a special grievance of their own before they will take any part in the strike, and as far as I know no grievance now exists."

HORSES BURNED FATALLY.

The Animals Roasted in a Wabash Freight Car are Dying.

Last Saturday THE SENTINEL gave an account of twenty horses suffering fearful torture in a burning freight car on the Wabash road at Abcite. There were twenty of the animals, all of which were more or less burned. Four of these, the ones most seriously burned, were taken to Meyer's livery stable, on East Wayne street, where one of them died yesterday. Another animal is expected to succumb to-day. At the Red Lion stables Dr. Dodge has the other fourteen horses under treatment and it is expected they will recover. Adjuster Lynch, of the Wabash, arrived from St. Louis and is in conference to-day with Charles Kern, of Wabash, who is owner of the animals, and it is believed a settlement will be effected without resorting to litigation. The horses were in transport cast.

The Weather.

WASHINGTON, Aug. 11.—Indiana—Cool and fair weather, followed by slightly warmer on Tuesday; easterly winds.

Killed in the Alps.

VIENNA, Aug. 11.—Baron Leon, of Vienna, has been killed by falling over a precipice in the Alps.

Miss Nellie Griffith, entertained friends pleasantly Saturday evening, at her home on Williams street.

TO BOOM CLEVELAND!

Penny Morning Newspapers Will be Started in Seven of the Largest Cities in the United States.

CHICAGO, Aug. 11.—Melville E. Stone's return from Europe has given rise to an interesting bit of gossip. It is rumored in certain quarters that Mr. Stone is at the head of a syndicate which has in view the publication of penny morning newspapers in seven of the largest cities of the United States. Mr. Stone is an ardent admirer of Grover Cleveland. The story is that he and certain other gentlemen have agreed to subscribe $2,000,000 toward making the enterprise a success. Mr. Stone's headquarters, it is said, will be in New York, and he will have associates in each of the cities where the penny papers are published, who will act directly under his orders. It is proposed to publish these papers in New York, Chicago, Boston, Philadelphia, Washington, St. Louis and Cincinnati. It is intended that each one of these cities shall have a morning publication that will be devoted entirely to advancing the political aims of Grover Cleveland.

WASHINGTON.

The Tariff Bill Still Taking up the Senate's Time.

WASHINGTON, Aug. 11.—The senate met at 10 a. m., with but twenty-seven senators present to listen to the chaplain's opening prayer. A quorum was secured by 10:20 and after the transaction of some routine business, the tariff bill was taken up, the pending question being on Mr. Plumb's amendment offered Saturday to reduce the additional duty on iron and steel bands used for cotton ties from two-tenths to one-thenth per pound. The amendment was rejected—yeas 18, nays 25—three republicans, Ingalls, Paddock and Plumb, voting with the democrats in the affirmative.

Mr. McPherson moved to amend the paragraph by reducing the duty on iron and steel hoops to fifty per cent. ad valorem. Mr. Wilson, of Iowa, replying to that part of Mr. Vance's speech of Saturday, in which he ridiculed the idea of protecting agricultural products insisted that it was not so foolish as represented, inasmuch as the importation of farm products, animals, hides, bread stuffs, flax, hemp, hay, hops, malt, wool, cotton, rye and fruits, amounting in the last fiscal year were $83,471,000.

In reply to a question of Mr. Butler as to the cause of the diminuition of value of farm lands in Ohio, said to be $20 an acre, Mr. Sherman said that he knew every county in the state of Ohio and that his impression was that, whereas there might be some diminuition of the value of farm lands in Ohio, as there was in New York, New England and almost everywhere, the cause of it was the competition from the west.

OLD SOLDIERS

Gathering at Boston For Their Annual Encampment.

BOSTON, Aug. 11.—The Grand Army week opened here with bustle and excitement. The weather is cool and light overcoats are in demand to-day. Member of the department of information were at their posts all night and to day, and have been of great assistance to the incoming veterans, a large delegation of whom arrived during the early morning hours, when the streets about the depot were filled with marching bodies.

One of the first delegations to arrive to-day was the E. B. Walcott post. To-night they will return to Malden to enjoy a lawn party there. At the New York and New England depot several long delayed trains came in during the night and were side-tracked, the occupants making themselves as comfortable as possible until morning. During the day large delegations continued to arrive from all parts of the country.

Prairie Fires.

DODGE CITY, Kas., Aug. 11.—Prairie fires are devastating the western part of Kansas, Ford and Edwards counties suffering the greatest. In the northern part of Ford county a tract of twenty miles square was burned over inside of two hours after the flames started. So far there has been no loss of human life, but in numerous instances the live stock has been destroyed in addition to the destruction of the crops of all kinds.

In Self-Defense.

COLEVILLE, Wash., Aug. 11.—Wm. Jenkins arrived yesterday morning from his ranch sixty miles from here and surrendered to the authorities. He stated that he had killed two men—Wm. Daly and Benj. Shaw—in a dispute over a horse trade. Jenkins claims he acted in self-defense.

TERRIBLE TORTURES!

Over One Hundred Captives Put to Death--A Governor's Son Eats His Own Flesh.

MOROCCO, Aug. 11.—A party of rebel Arabs met and defeated the Morocco army at Aitinsi with considerable loss. One hundred and twenty captives taken by the rebels were put to death. The son of the governor, who was also captured by the rebels, was compelled to eat toasted portions of his own flesh.

BASE BALL.

The Kaisers and Pilseners Win--The Inter-State League Probably Disbanded.

A special from Terre Haute Saturday says:

The last games of the Inter-state league series will probably be the two games played on the Terre Haute diamond this afternoon between Terre Haute and Quincy. It has now dawned upon the league managers that the league is on its last legs. The finances are at low tide. Terre Haute has been the only city in the league that has furnished a paying attendance at games, and the high salaries paid by other cities could not be made out of the gate receipts.

James Fitzpatrick, president of the Inter-state league and also president of the Terre Haute club, says it may be possible to keep the league together, but he does not say what steps will be taken in order to accomplish this end. The finances of the home team are in good condition, and rebates will be paid on season tickets if the league goes under.

The club standing is as follows: Terre Haute, Evansville, Peoria, Quincy, Burlington.

MASSAS VS. EMMETTS.

An exceedingly interesting game of ball was played yesterday on Wagner's flats between the Massas and Emmetts, which resulted in a hard earned victory for the latter club by a score of 4 to 2. The Massas distinguished themselves by their fine work in the infield. The features of the game were a beautiful one-hand fly catch in the fourth inning and a home run on a fly to the left field in the fifth inning, both by Hudry, also the sprinting by DeRome and a lightning double play by Smith and Sheppard in the second.

Following is the score:

	R	H	E
By innings. 1 2 3 4 5 6 7 8 9			
Massas 1 0 1 0 0 0 0 0 0	2	7	6
Emmetts..... 0 0 2 0 0 2 0 0 0	4	7	5

Earned runs—Massas, 2; Emmetts, 2. Home run—Hudry. Two-base hits—Lonergan, Smith, Bradley, Benedict. Double plays—Smith to Sheppard. Base on balls—Massas, 2; Emmetts, 2. Base on batters hit—Emmetts, 1; Massas, 0. Stolen bases—Massas, 6; Emmetts, 5. Struck out—By Waldschmidt, 5; by Benedict, 9. Passed balls—Lonergan, 6; Smith, 1; Bradley, 4. Time of game—Two hours and fifty minutes. Umpire—McKendry. Scorer—Bensman.

SATURDAY'S LEAGUE GAMES.

Brotherhood—Boston 2, Brooklyn 6; Cleveland 6, Pittsburg 1; Chicago 10, Buffalo 7; New York 3, Philadelphia 7.

National League—Cleveland 5, Cincinnati 4; Philadelphia 6, Boston 9; Pittsburg 4, Chicago 6; New York 0, Brooklyn 5.

American Association—St. Louis 3, Brooklyn 4; Toledo 3, Athletics 7; Louisville 11, Syracuse 2; Columbus 10, Rochester 3.

NOTES.

The Mansfields won the pennant in the Tri-State league contest.

The Lakeside base ball club defeated the Bourbons yesterday by a score of 23 to 18.

The Fort Wayne Stars yesterday defeated the Brames in a game of ball by a score of 32 to 7.

The Golden Eagles defeated the Irishtown Thieves in a game of ball yesterday by a score of 27 to 6.

The Easterners and the Royals played a game of ball yesterday, which resulted in favor of the former by a score of 21 to 18.

The Cigarmakers and Salvator base ball clubs played a game of ball yesterday, which resulted in favor of the latter by a score of 11 to 8.

The Electric base ball club met a nine of Murray's foundry, Saturday afternoon, and won by a score of 19 to 5. Hirt pitched for the Electrics and Gaffney for the Murray's.

A game of base ball was played yesterday between the Young Kaisers and Rusty and Spy Runs and Rustys for the championship of Geary's Museum and ten tickets to each of the winning clubs. The Rustys and Spy Runs played the first game, the Rustys winning by a score of 8 to 7. The second game was between the winners and the Young Kaisers, the Rustys again winning by a score of 14 to 13, thus winning the bundle of tickets.

The Wieners were defeated by a score of 7 to 5 in favor of the R. R. R's of Ewing's grove. The battery for the former club was Demeyer and Braden, and for the latter, Yates and McDonald.

The city league games were well attended yesterday. The game between the Pilseners and Dortmunders resulted in a victory for the former by a score of 15 to 12. The Kaisers defeated the North Waynes 9 to 4.

A tame game, advertised as "Scott's benefit," was played before an audience of fifty spectators at League park Saturday afternoon. The contesting clubs were the Athletics and a picked nine of which Scott and Ferris formed the battery. Joss and Peltier formed the battery for the Athletics. At the end of the eighth inning, with a score of 19 to 8 against them, Scott gave it up and the game was called. Mike Belger umpired the game and gave some clean decisions.

THE HIDDEN HAND.

DOWN TO BUSINESS.

A General Committee Meeting of the Council to Discuss Water Works Extensions.

The committees on finance, street, water works and others, will hold individual meetings this evening, after which they will meet as a general committee with the water works trustees. The object of the latter meeting will be to discuss the propriety of extending water mains. In other words the councilmen will get down to business so that at the council meeting to morrow evening they can recommend the laying of water mains on improved streets, where such improvement is lacking.

There is available for this purpose something over $24,000, the amount originally set aside for building and equipping several engine houses, which, however, it was afterward decided to pass over another year. That the council will order the work done is not doubted and it seems that this much-talked of, grand and needed improvement is about to become a reality.

JOE CLARK DEAD.

The Death of the Well Known Tailor Occurs at Kent, Ohio.

It was with a feeling of sadness and regret that the news was received in this city yesterday of the death of Joseph M. Clark, which occurred early Sunday morning at Kent, Portage county, Ohio. The deceased will be remembered as the popular, generous and kind gentleman, who for many years followed the merchant tailoring business in this city and which business has to this day been conducted under his name. On May 28, 1888, Mr. Clark suffered a stroke of paralysis, the entire left side being rendered useless. He was taken to the home of his sistor at Kent, O., afterward to a Chicago hospital and thence to Kent again. He never recovered from that attack. Shortly after going to Kent he was married, the ceremony being performed while he was yet unable to sit up, and his wife, to the hour of his death, proved herself a devoted and loving nurse. Mr. Clark was born in Washington county, Pa., fifty-six years ago and at the age of six months was left an orphan.

At the age of twenty-one he came to Fort Wayne and associated himself with Wade Shoaff, then and for years afterward the leading tailor. Young Clark soon established a business of his own and built a reputation upon his skillful work. He became successful, having among other investments been able to erect the business building at 32 East Berry street, which was occupied by his tailoring business ever since. When Mr. Clark became helpless he took into partnership Perry DeHaven, who had been in his employ twenty-one years previous, and since then Mr. DeHaven has had entire charge of the business. The deceased was a citizen loved and esteemed and his loss will be sorely felt. He was a member of Sol D. Bayless lodge, F. & A. M., and Fort Wayne chapter, R. A. M., both of which lodges will pass resolutions on his demise. Mr. DeHaven left early this morning for Kent to attend the funeral, which will occur to-morrow.

PATROL PICKUPS.

Eliza Chamberlain Says She Will Reform--Police Pickings.

Rufus Seifer and his wooden leg were hauled to the bastile because Rufus was drunk. The prisoner looked like a back number, but did not flinch a bit when the court said eleven days.—Arrested by Stoll.

William Stuller, arrested by Harkenrider, was sent over for eleven days.

Eliza Chamberlain, whose reputation for chastity has become doubted so much that the officers are obliged to keep her and her miserable quarters on Clinton street under surveillance, was arrested again by Officer O'Connell. She had lured into her room a young fellow named John Frawley, who was none the better off for the liquor inside of him. The charge against him was intoxication, and his fine was paid. Eliza, although a queen with thousands at her disposal, agreed to go to jail, cogitate and reform.

John Huffer was arrested for drunkenness, by Officer Roble. It being the second offense, he was sent over for fifteen days.

IT WAS FATAL.

Christian Fuhrman Dies From the Effects of Fearful Injuries.

Christian Fuhrman, a farmer who was injured by a bursted emery wheel one day last week, died Friday from his injuries. A widow and family survive him. The funeral took place from the house in Marion township yesterday afternoon, and was largely attended.

EMMETT DRAMATIC CLUB—Meet at Library Hall.
LODGES—Phoenix, 101, K. of P.; Fort Wayne, 14, I. O. O. F.

THE railroad strike in the east is a serious interruption to business.

THE census returns will probably give Indiana a population of 2,224,822.

REV. R. M. BARNS delivered an interesting sermon yesterday morning at the Wayne street M. E. church on the subject, "From Gas Wells to Snow Fields."

WITH the president and Secretary Noble, Uncle Jerry Rusk, the secretary of agriculture, is attending the national G. A. R. encampment at Boston this week. Can it be that Jerry, too, has the presidential bee in his bonnet?

THE program for the coming week in the senate includes the tariff, river and harbor and probably some further discussion of the arid law and irrigation questions. The tariff is the order of the week until Friday, when the river and harbor bill is to come up for consideration.

THE democrats of Laporte county met in delegate convention Saturday at Michigan City and nominated the following county ticket: For representative, William Fowler; sheriff, George W. Reed; auditor, F. C. Lambke; treasurer, S. S. Bosoerman; recorder' George F. Swan; surveyor, James D. Norris; coroner, A. J. Mullen; commissioners, D. F. Berchom, D. S. Hart and Roswell K. Bennett.

WM. H. KLIVER, of Chicago, who spoke in this city last May, was chosen president of the United Brotherhood of Carpenters and Joiners of America at its convention held at Chicago Saturday. He was chosen on the second ballot, after President Rowlands had declined to serve for another term, and his election was made unanimous. General Secretary McGuire was re-elected to the position by acclamation and W. C. Wellin, of San Francisco; J. H. Burke, of Brooklyn; Hugh McKay, of Boston, and Charles Owens, of New York, were elected vice-presidents.

THE Iowa democrats speak with ringing words on the tariff question. They say in their platform: "We are in favor of a tariff for revenue only—a tariff reduced to the lowest rate consistent with the needs of an economical administration of the government. Liquors, tobacco and all luxuries should be made to bear, as far as possible, the burdens of taxation and the necessaries of life should, so far as possible, be relieved. We oppose the McKinley bill as an abuse of the taxing power in favor of the wealthy corporations, pools and trusts by which our manufacturing interests are so largely controlled. It especially discriminates against the agricultural interests of the country by compelling the farmer to buy what he needs and sell what he produces in monopolized markets. We are in favor of commercial reciprocity, not alone with the Spanish states of South America, but as well with other countries whose markets are open to our products."

THE FARMERS' MEETING.

The joint meeting of the Farmers' alliance and the labor organizations, which was held in this city last Saturday afternoon, was attended by a number of the representatives of these orders and was an interesting and enthusiastic meeting. It was called to order at 10 o'clock by Mr. Stephen Heath, president of the Patrons of Husbandry. Mr. Thomas McKee, of the Farmers' alliance, in stating the object of the meeting, said that it was called for the purpose of learning the views of the various labor organizations on the subject of united action in matters of especial and vital interest to laboring men. He also stated that it was the duty of his class to protest against the doctors and lawyers holding all the offices and making the laws of the land. A committee on resolutions was appointed and Mr. C. L. Drummond was chosen secretary.

At the afternoon session the secretary read the following resolutions drafted by the committee appointed in the morning:

WHEREAS, Many reforms are needed and we ask for legislation and enforcement of laws to bring them about. We demand the passage of these measures not in the name of any party, but in the name of justice, in the name of the people.

Resolved, That aliens should be prohibited by law from owning real estate in the United States.

Resolved, That we favor the enactment of a law by the state legislature of Indiana, that the mortgagor and mortgagee be regarded as joint owners of real estate for the purpose of taxation.

We demand an economical administration of state and county expenditures.

We demand that the salaries of state and county officials should be cut down to correspond with the depreciated value of farm products.

We demand that the county officials shall be paid fixed salaries instead of fees.

We are opposed to any further extension of the state debt as against public welfare, and we demand such an administration of state affairs as shall lead to the speedy payment of its debt.

Other resolutions embodied demands that taxation, national or state, shall not be used to build up one interest or class at the expense of another; that the laws against bogus butter, lard and other products be rigidly enforced; that the legislature give relief in the matter of dealing with those engaged in the fraudulent collection of notes; that there be legislation respecting the liquor traffic, that will prevent it from increasing in taxes; and that the United States senators should be elected directly by the people.

THE resolutions were unanimously adopted.

A communication was received from the Trade and Labor assembly, inviting the farmers' alliance to attend and participate in the Labor Day celebration, September 1.

The question of placing a county ticket in nomination was discussed with considerable enthusiasm. A number of those present vigorously opposed the idea, declaring that such an action would only be suicidal. One asserted that if a ticket was put in the field he would under no circumstances support it. The measure was defeated by a vote of fifty to thirty.

The matter was subsequently referred back to the various labor organizations, and will be again taken up at the next meeting, which is to be held September 11.

The adjourned meeting may or may not result in the nomination of a county ticket. We again insist that the democratic party is the true and staunch friend of the farmers and the laboring masses. Its principles and the legislation which it advances in the state legislative halls and on the floors of the national congress are such as will give them the relief from oppression that they seek, and no democrat, especially, should be drawn from his party to unite with others in supporting candidates not on the regular democratic ticket. Our county ticket, already nominated, is an excellent one. Every candidate on it is worthy of support and there should be nothing done that will in any way endanger the success of the men who have been nominated for the state legislature. They will have the choosing of a United States senator and only such men as will support the democratic nominee for this high and important office should be elected to the state legislature. Let not our farmer friends or the members of the various labor organizations be deceived. The republicans will encourage the movement to place separate legislative candidates in the field in order that they may succeed in the senatorial contest, but no democrat should be deceived by it, for to give the movement support would not only endanger success, but may result in sending a republican to the United States senate. This is the scheme the republicans have in view in encouraging the new political movement.

A VOICE FROM KANSAS.

The Western farmer has no interest whatever in a protective tariff, says the Atchinson, Kan., Champion. His interest rather lies in the direction of free trade—of access to all markets—wherever his products may be in demand. It is for his interest to sell what he raises wherever in all the wide world he can find a purchaser, and thus provide himself with the means of disposing of his surplus crops. Not only is he vitally interested in securing all possible markets, but equally so in buying what he needs as cheaply as possible. Sell where he may, and buy at the lowest figures; this, selfish as it may seem, is what most concerns the Western farmer.

Free trade will give the west the markets of the world, and an opportunity to buy what it requires at less than half it now pays for these same articles.

Lumber, hardware, furniture, clothing, groceries and agricultural implements—these the west needs principally. Free trade will bring these things to us at figures far below protective prices.

In all this one speaks solely from the standpoint of self-interest. It is with states and sections as with individual citizens—self-preservation is the first obligation. A due regard to our sectional preservation, our territorial interest, demands the adoption of free trade—commercial reciprocity with all nations. The east, as we have stated, has grown dangerously rich by means of a protective tariff; now let the west assert itself and use the means at its command to change its economic policy to one more conducive to sectional welfare.

The question is broader than party lines. It is more vital than mere formal political organizations, and more essential than the dominance of any particular set of politicians, for it touches our life and is indissolubly interwoven with existence.

Protection continued twenty years longer and the west, with its vast agricultural possibilities, would be a pauper bound hand and foot. Let us who live here in the west be fools no longer, but let us exercise our common sense and protect our own interests by obtaining, just as quickly as possible, the freest trade, with all its attendant benefits.

The peculiar enervating effect of summer weather is driven off by Hood's Sarsaparilla, which "makes the weak strong."

Banana sandwiches are now popular at picnics.

The leading question now is: "Are you provided with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as a safe guard against an attack of bowel complaint during the summer months?" No family can afford to risk being without this invaluable medicine during the hot weather. It is almost certain to be needed, and is a friend indeed when required, as it never fails and is pleasant and safe to take. 25 and 50 cent bottles for sale by druggists.

MAJOR M'KINLEY SPEAKS.

He Thinks Congress Will Hardly Adjourn Before Sept. 15.

Senator Aldrich has said that by August 23 the senate will have disposed of the tariff bill. Major McKinley, gives the senators until September 1 to dispose of it. He says:

"If the bill is sent over to the house by September 1 I do not think it will require more than a week to dispose of it there. It is impossible to estimate the time that will be consumed by the conference committees, but another week would not be an extravagant allowance. We would, of course, save a great deal of time if, when the bill is received back by the house, the motion to non concur without debate could be passed. That, however, does not seem at all likely."

"How much time will the senate require to dispose of the federal election bill?"

"I have no means of guessing. There is no reason, however, why that measure should not at once be taken up when the tariff bill is passed. The two houses could then proceed together and much time would be saved."

"You do not look, then, for an adjournment before the middle of September?"

"Hardly; though, of course, no one can tell what may arise to expedite or delay congressional work. Nothing that is necessary can be left undone."

WHAT IS SAPOLIO?

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry. To use it is to value it.

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

BEWARE OF IMITATIONS. THERE IS BUT ONE SAPOLIO.

HAIR ON THE FACE, NECK, ARMS OR ANY PART OF THE PERSON QUICKLY DISSOLVED AND REMOVED WITH THE NEW SOLUTION

MODENE

AND THE GROWTH FOREVER DESTROYED WITHOUT THE SLIGHTEST INJURY OR DISCOLORATION OF THE MOST DELICATE SKIN.—DISCOVERED BY ACCIDENT.

IN COMPOUNDING, an incomplete mixture was accidentally applied on the back of the hand, and on washing afterward it was discovered that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts mildly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on moles may require two or more applications before all the roots are destroyed, although all hair will be removed at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. —SOLD AT $1 PER BOTTLE BY DRUGGISTS.—

—Recommended by all who have tested its merits—Used by people of refinement.—

Gentlemen who do not appreciate nature's gift of a beard, will find a priceless boon in Modene, which does away with shaving. It dissolves and destroys the life principle of the hair, thereby rendering its future growth an utter impossibility, and is guaranteed to be as harmless as water to the skin. Young persons who find an embarrassing growth of hair coming, should use Modene to destroy its growth. Modene sent by mail, in safety mailing cases, postage paid, (securely sealed from observation) on receipt of price, $1.00 per bottle. Send money by letter, with your full address written plainly. Correspondence sacredly private. Postage stamps received the same as cash. ALWAYS MENTION YOU SAW IT IN THE SENTINEL AND THIS PAPER.

Why Royal Baking Powder is the Best.

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

I will go still further and state that, because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation,

the Royal Baking Powder is undoubtedly the Purest and most reliable baking powder offered to the public.

The moulders of the Bass foundry defeated the helpers in a game of ball yesterday morning by a score of 11 to 4. One of the features of the game was the beautiful playing of Merrill of the moulders nine. The battery for the moulders were Doriot and Schilling, and Trainer and Eckert were in the points for the helpers.

Sam McAfee, of the Pittsburg blacksmith shops, was up the river on a fishing trip Saturday afternoon and reports a fine catch. He says he would have caught more, only he lost the bait in the river.

The infant child of W. H. Baker, of the Pittsburg machine shop, died Saturday afternoon at his home at 97 Montgomery street. The funeral occurred at two o'clock this afternoon. Mr. Baker has had a great deal of sickness in his family lately, his wife being hardly able to leave her bed for almost six months. He has the sympathy of a host of friends in his sad bereavements.

William Craig, spoke turner at the American wheel works, had the fingers of his left hand badly injured Saturday morning. He was standing near a smoothing belt and becoming overbalanced threw out his hand and it was caught between the belt and a board. The belt was going at a high rate of speed and it was some time before he could extract it. The nails on four of his fingers were torn off and the ends of the members were badly lacerated. Dr. McCausland attended him. It will be several weeks before he can resume his position.

Mr. Charles Truman, of the Pan Handle, returned a few days since from a visit of several days with friends at Van Wert, Ohio, says the Logansport Journal, and while there he took pains to inquire into the details of the killing of Engineer Vandevander by Fireman Woodhouse at that point some time since. Mr. Truman says that public sentiment, which was very much against Woodhouse at first, has now shifted, and the tide of public opinion has set in in his favor. Vandevander was known to be very ugly when in liquor, as he undoubtedly was at the time he lost his life, and many persons are of the opinion that Woodhouse acted in self-defense in a large degree, and had he not killed the engineer, the latter would have killed him. The case comes up for trial in October at Greenville.

GROWTH OF THE CHURCH.

Plain Refutation of the Assertion That Christianity is Losing Ground.

(New York Herald.)

The Independent has gathered some valuable and interesting statistics showing the strength of the various Christian churches of the United States and their growth during the past year. In some cases the figures are estimates, but our contemporary believes that on the whole the results "very closely approximate the truth."

From these it appears that there are in the United States 151,261 churches of all denominations, 103,300 ministers and 22,000,000 members. During the year there has been an increase of 8,500 churches, nearly 4,900 ministers and nearly 1,090,000 members.

The most numerous denomination is the Roman Catholic, with its 7,500 churches, 8,300 priests, etc., and 8,277,000 population, of whom 4,676,000 are estimated to be communicants.

Then come the Methodists, with, in round numbers, 4,980.000; communicants; Baptists, 4,292,000; Presbyterians, 1,229,000; Lutherans, 1,086,000; Congregationalists, 391,000, and Episcopalians, 480,000.

The increase of the Catholic population during the year was 421,700. The estimated gain in Catholic communicants was over 238,000.

The growth of Protestant membership was 668,000. The Methodists gained more than 256,000, the Baptists more than 213,000, the Lutherans 98,000, the Presbyterians nearly 49,000, the Congregationalists more than 16,000 and the Episcopalians about 9,500.

The accession of new members was even larger than these figures, since in every denomination there were deaths of members whose places were filled by new acquisitions. The number of deaths in the Methodist Episcopal body, for example, was reported at 28,300.

This is a highly satisfactory and encouraging showing to all who have the welfare of the church at heart. A gain of nearly eleven hundred thousand in membership in one year, with a corresponding increase in the number of churches and ministers, indicates that Christianity is marching on with no uncertain stride. As our contemporary well says, "It is in itself a most overwhelming refutation of the assertions we hear now and then from various quarters that Christianity is losing its hold upon our people and that our churches are declining."

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

DUKE FERRY.

A Distinguished Citizen of Tacoma Visits His Old Home.

For some days past the Aveline numbered among its guests Clinton P. Ferry and daughter, May, of Tacoma, Wash. Mr. Ferry came east to meet his daughter, who is en route home from Switzerland, and stopped here to visit his mother, Mrs. Caroline Ferry, widow of Lucien P. Ferry, who resides at 119 West Washington street, and the family of his sister, Mrs. R. D. Boyles, of Miner street. Mr. Ferry was here for a brief period a year ago, when he had completed a trip around the world. He was a school-mate of ex-Mayor Chas. F. Muhler, who with many others will recall him. Himself and daughter will visit Logansport this week, returning here before their final departure for home.

The Tacoma Illustrated has a timely article on this gentleman's career, of which the following is a brief extract:

"Mr. Ferry is a self-made man, born at Fort Wayne, Ind., in 1836. After the age of twelve years he took upon himself his own education, meanwhile being his own support. He left school when nineteen years old, having passed through a commercial college, and became cashier of the Toledo, Wabash & Western railroad, leaving his position two years later to go the Pacific coast, where he spent about twenty years between Portland and San Francisco. He located in Tacoma in 1868, when that place was little less than a forest, and invested largely in real estate. His investments were looked upon then as pure acts of folly, and thus it was that he was dubbed the "Duke of Tacoma," a sobriquet which he holds to the present day. Mr. Ferry is of French descent, his grandfather having been chef de battalion under Napoleon the First. Much of the real estate bought early by him is the finest property in Tacoma, and is still held by him. He is active in public interests, is not a politician, and uses his money and influence in all good acts of charity and public good. His zeal, vitality, perseverance, honor, polished manners and good fellowship, have secured for him the best legacy any man can wish—firm and devoted friends."

An old soldier's story: In the late war I was a soldier in the First Maryland volunteers, company G. During my term of service I contracted chronic diarrhœa, since then I have used a great amount of medicine, but when I found any that would give me relief they would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhœa Remedy was brought to my notice. I use it and will say it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, and while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. Bending, Halsey, Ore.

Peculiar

Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy, Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is more of Hood's Sarsaparilla sold in Lowell than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad no other preparation ever attained so rapidly nor held so steadfastly the confidence of all classes of people. Peculiar in the brain-work which it represents, Hood's Sarsaparilla combines all the knowledge which modern research in medical science has developed, with many years practical experience in preparing medicines. THE MUTUAL LIFE INSURANCE COMPANY, OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.—

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ---------- DOLLARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED. Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in mercantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

The Boston Store

Shows the results of a successful sale. Our object has been accomplished. The Odds and Ends of Summer Goods are gone, and while we still expect to sell some warm weather goods, they will be different.

We open up this week, New Challies, Lawns, Ginghams, Prints, in entirely new designs, just a little darker than the strictly summer goods, and while, just the thing for present use, they can be worn until cold weather.

We have received some extra good value, in All Wool Black Dress Goods. It will pay to buy a dress now, if even for future use. The goods shown in this department at 50c., per yard are superior to anything we have ever sold for the money, and the higher grades will be found correspondingly cheap.

Our Patent Adjustable Fly Screens for windows seem to be a long felt want.

How often people suffer the annoyances that multitudes of flies and mosquitos in the house create, not because they cannot afford fly screens, but because as a matter of principle they won't buy them while living in a hired house, to leave them for the use of the next tenant. All this is now changed. The screens we sell will fit almost any window. Come and see them, and if you don't buy you will at least compliment the inventor.

IT IS STILL ON.

The Big Railroad Strike in New York Continues, But Its Back Bone is Broken.

NEW YORK, Aug. 11.—Just after midnight this morning all the locomotive firemen (members of the brotherhood of locomotive firemen) on the Hudson River division of the New York Central and Hudson River railroad, joined the striking Knights of Labor who went out Friday night. This defection of firemen will, it is feared, completely block travel over the New York Central between this city and Albany, as the brotherhood of locomotive engineers are pledged not to run with any firemen except those belonging to the brotherhood of locomotive firemen.

It has been definitely decided to strike on the Lake Shore, Michigan Central and Michigan Southern to-day. It is determined to tie up all the main line of the Central all the way from New York to Chicago.

The New York Central officials say this morning that the firemen are still on duty and that none of them have deserted their posts.

At 3 o'clock this morning Inspector Byrnes was informed by the New York Central company that it was proposed to move the immense accumulation of freight which was stored on the tracks on the west side of the city from the freight depot in St. Johns' park to Seventy-ninth street and the North river. More than 2,000 loaded cars have accumulated on the west side tracks in both since the strike began at 7 o'clock on Friday night. It is the purpose of the company to move the cars by dummy engines to the freight yards at Sixty-fifth street and the Hudson river, where the trains will be taken north over the road by regular engines. The attempt will be made this afternoon. The police are on duty to prevent a disturbance.

An air of quietness prevailed in and about the Grand Central freight and passenger depots all through last night and this morning. No officials were seen about the depots all last night. Additional notices were posted about the yard, announcing the determination of the company to fight the strike and promising protection to all employes who remain at work. Milk cars came in during the night between one and three o'clock, but not as many as usual. Only 1,400 cans of milk were received. Usually 2,200 cans came in. The usual price of milk at the yard is from $1.40 to $1.60 per can. This morning it was sold at $1.75 per can. Nearly all the dealers were supplied and to-morrow it is expected all will be right and milk selling at the usual price.

Three passenger trains were run out this morning from the Grand Central depot. Brotherhood firemen and engineers were on duty, but General Committeeman Holland and Secretary Hayes, of the Knights, said they would go out in a few hours. No attempt was made by the Grand Central to run the regular New York and Harlem local trains, though some through trains stopped at the small stations. Two freight trains were got out of the Sixty-fifth street yard. One hundred and twenty-five policemen were on guard there, but the strikers made no demonstration. These freight trains were run by green hands.

Vice-president Webb, for the Vanderbilts, still refuses to submit the case to arbitration or to confer with the Knights of Labor. He said this morning that the backbone of the strike, so far as the New York end was concerned, was broken. He was, however, much concerned about the trouble at Syracuse and Albany.

Western railroad men have been brought on by the Vanderbilts to take the places of the strikers. Four new towermen were secured to take the places of those working on Saturday. Mr. Depew has not as yet sent any word with regard to the trouble on the road. None of the striking switchmen and yardmen returned to work on the West Shore this morning. The engineers and firemen stuck to their posts. The 5:25 freight train was got out, but Superintendent Williams said that no more freight would be moved until 8 o'clock to-night.

The trains on the New York, New Haven and Hartford road were all on time. At 8 o'clock the company dispatched a special for Boston, on board of which were the members of Grand Army post No. 14. They expect to reach Boston by 3 o'clock this afternoon.

An 8:10 passenger train rolled over the Harlem railroad on time and at 8:20 another passenger train left on the Central track. As the day wore on trains came in and went out pretty much as if there was no strike at all, and the general opinion of those not interested was that the back bone of the strike was broken. The trains arriving and departing were manned by western railroad men in most instances. The sum and substance of the situation was expressed by a striker who said, "unless the firemen and engineers join us we are lost."

BUFFALO, N. Y., Aug. 11.—The Central strike is still in progress here, though Buffalo does not seem to be so seriously affected as other points. There is, however, a bad blockade of freight in the yards, and mail and passengers are badly delayed.

SYRACUSE, N. Y., Aug. 11.—The situation of the great strike on the New York Central is not much changed this morning. All is quiet both here and at East Syracuse and the 200 millitiaman quartered at the state armory, are being held for orders from Gov. Hill.

TROY, N. Y., Aug. 11.—Absolute quiet marks the progress of the strike in Troy. Trains are running in and out of the union depot regularly, and the places of the forty switchmen, flagmen and trackmen who quit Saturday are being filled as rapidly as possible. Fifty Pinkerton men arrived this morning.

ALBANY, N. Y., Aug. 11.—At 10:45 this morning twenty firemen on the Central went out, the engineers saying they will pull no train out with a green fireman as a helper.

SCRANTON, Pa., Aug. 11.—General Master Workman Powderly, in an interview last night, said he had received no word whatever from the seat of the strike. The general executive board will meet in Detroit Wednesday. He feels certain the Brotherhood of Locomotive Engineers will cast its fortunes with the Knights of Labor, if such action is deemed necessary.

TERRE HAUTE, Ind., Aug. 11.—Grand Master Sargent, of the brotherhood of locomotive firemen, received many telegrams from the New York Central strikers yesterday, asking him to go east, but he declined to take any official action in regard to the strike, saying that the brotherhood was not consulted in its inception and was not called upon to use its usual means of settling grievances with the railroad companies.

ARTHUR TALKS.

CLEVELAND, Ohio, Aug. 11.—Grand Chief P. M. Arthur, of the brotherhood of locomotive engineers, was asked this morning whether there was any probability of a strike of the engineers on the New York Central railroad. He replied: "I don't think there is the slightest probability of a strike. I have received no complaints and I don't think the engineers have any to make. The New York Central is generally looked upon by engineers to be about the best in the country to work for, and the men who are on it will probably stay.

"As far as our brotherhood is concerned, it has nothing in common with the firemen's or conductor's organizations, and will not be influenced by what they may do. The engagement of 'scab' firemen would not cause a strike among the engineers if there was no other cause for quitting work. The engineers must have a special grievance of their own before they will take any part in the strike, and as far as I know no grievance now exists."

HORSES BURNED FATALLY.

The Animals Roasted in a Wabash Freight that are Dying.

Last Saturday THE SENTINEL gave an account of twenty horses suffering fearful torture in a burning freight car on the Wabash road at Abotts. There were twenty of the animals, all of which were more or less burned. Four of these, the ones most seriously burned, were taken to Meyer's livery stable, on East Wayne street, where one of them died yesterday. Another animal is expected to succumb to-day. At the Red Lion stables Dr. Dodge has the other fourteen horses under treatment and it is expected they will recover. Adjuster Lynch, of the Wabash, arrived from St. Louis and is in conference to-day with Charles Kern, of Wabash, who is owner of the animals, and it is believed a settlement will be effected without resorting to litigation. The horses were in transport east.

TO BOOM CLEVELAND!

Penny Morning Newspapers Will be Started in Seven of the Largest Cities in the United States.

CHICAGO, Aug. 11.—Melville E. Stone's return from Europe has given rise to an interesting bit of gossip. It is rumored in certain quarters that Mr. Stone is at the head of a syndicate which has in view the publication of penny morning newspapers in seven of the largest cities of the United States. Mr. Stone is an ardent admirer of Grover Cleveland. The story is that he and certain other gentlemen have agreed to subscribe $2,000,000 toward making the enterprise a success. Mr. Stone's headquarters, it is said, will be in New York, and he will have associates in each of the cities where the penny papers are published, who will act directly under his orders. It is proposed to publish these papers in New York, Chicago, Boston, Philadelphia, Washington, St. Louis and Cincinnati. It is intended that each one of these cities shall have a morning publication that will be devoted entirely to advancing the political aims of Grover Cleveland.

WASHINGTON.

The Tariff Bill Still Taking up the Senate's Time.

WASHINGTON, Aug. 11.—The senate met at 10 a. m., with but twenty-seven senators present to listen to the chaplain's opening prayer. A quorum was secured by 10:20 and after the transaction of some routine business, the tariff bill was taken up, the pending question being on Mr. Plumb's amendment offered Saturday to reduce the additional duty on iron and steel bands used for cotton ties from two-tenths to one-tenth per pound. The amendment was rejected—yeas 18, nays 25—three republicans, Ingalls, Paddock and Plumb, voting with the democrats in the affirmative.

Mr. McPherson moved to amend the paragraph by reducing the duty on iron and steel hoops to fifty per cent. ad valorem. Mr. Wilson, of Iowa, replying to that part of Mr. Vance's speech of Saturday, in which he ridiculed the idea of protecting agricultural products insisted that it was not so foolish as represented, inasmuch as the importation of farm products, animals, hides, breadstuffs, flax, hemp, hay, hops, malt, wool, cotton, rye and fruits, amounting in the last fiscal year were $83,471,000.

In reply to a question of Mr. Butler as to the cause of the diminution of value of farm lands in Ohio, said to be $29 an acre, Mr. Sherman said that he knew every county in the state of Ohio and that his impression was that, whereas there might be some diminution of the value of farm lands in Ohio, as there was in New York, New England and almost everywhere, the cause of it was the competition from the west.

OLD SOLDIERS

Gathering at Boston For Their Annual Encampment.

BOSTON, Augs 11.—The Grand Army week opened here with bustle and excitement. The weather is cool and light overcoats are in demand to-day. Member of the department of information were at their posts all night and to day, and have been of great assistance to the incoming veterans, a large delegation of whom arrived during the early morning hours, when the streets about the depot were filled with marching bodies.

One of the first delegations to arrive to-day was the E. B. Walcott post. To-night they will return to Malden to enjoy a lawn party there. At the New York and New England depot several long delayed trains came in during the night and were side tracked, the occupants making themselves as comfortable as possible until morning. During the day large delegations continued to arrive from all parts of the country.

Prairie Fires.

DODGE CITY, Kas., Aug. 11.—Prairie fires are devastating the western part of Kansas, Ford and Edwards counties suffering the greatest. In the northern part of Ford county a tract of twenty miles square was burned over inside of two hours after the flames started. So far there has been no loss of human life, but in numerous instances the live stock has been destroyed in addition to the destruction of the crops of all kinds.

In Self-Defense.

COLFAX, Wash., Aug. 11.—Wm. Junkins arrived yesterday morning from his ranch sixty miles from here and surrendered to the authorities. He stated that he had killed two men—Wm. Daly and Benj. Shaw—in a dispute over a horse trade. Junkins claims he acted in self-defense.

TERRIBLE TORTURES!

Over One Hundred Captives Put to Death—A Governor's Son Eats His Own Flesh.

MOROCCO, Aug. 11.—A party of rebel Arabs met and defeated the Morocco army at Aitinsi with considerable loss. One hundred and twenty captives taken by the rebels were put to death. The son of the governor, who was also captured by the rebels, was compelled to eat toasted portions of his own flesh.

BASE BALL.

The Kaisers and Pilseners Win—The Inter-State League Probably Disbanded.

A special from Terre Haute Saturday says:

The last games of the Inter-state league series will probably be the two games played on the Terre Haute diamond this afternoon between Terre Haute and Quincy. It has now dawned upon the league managers that the league is on its last legs. The finances are at low tide. Terre Haute has been the only city in the league that has furnished a paying attendance at games, and the high salaries paid by other cities could not be made out of the gate receipts.

James Fitzpatrick, president of the Inter-state league and also president of the Terre Haute club, says it may be possible to keep the league together, but he does not say what steps will be taken in order to accomplish this end. The finances of the home team are in good condition, and rebates will be paid on season tickets if the league goes under.

The club standing is as follows: Terre Haute, Evansville, Peoria, Quincy, Burlington.

MASSAS VS. EMMETTS.

An exceedingly interesting game of ball was played yesterday on Wagner's flats between the Massas and Emmetts, which resulted in a hard earned victory for the latter club by a score of 4 to 2. The Massas distinguished themselves by their fine work in the infield. The features of the game were a beautiful one-hand fly catch in the fourth inning and a home run on a fly to the left field in the fifth inning, both by Rudry, also the sprinting by Deitsone and a lightning double play by Smith and Shoppard in the second.

Following is the score:

	R	H	E
By innings. 1 2 3 4 5 6 7 8 9			
Massas 1 0 1 0 0 0 0 0 0	2	7	0
Emmetts:... 0 0 2 0 0 2 0 0 0	4	7	5

Earned runs—Massas, 2; Emmetts, 2. Home run—Rudry. Two-base hits—Lonergan, Smith, Bradley, Benedict. Double plays—Smith to Shoppard. Base on balls—Massas, 2; Emmetts, 2. Base on batters hit—Emmetts, 1; Massas, 0. Stolen bases—Massas, 6; Emmetts, 5. Struck out—By Waldschmidt, 5; by Benedict, 9. Passed balls—Lonergan, 6; Smith, 1; Bradley, 4. Time of game—Two hours and fifty minutes. Umpire—McKendry. Scorer—Benedict.

SATURDAY'S LEAGUE GAMES.

Brotherhood—Boston 2, Brooklyn 6; Cleveland 6, Pittsburg 1; Chicago 10, Buffalo 7; New York 3, Philadelphia 7.

National League—Cleveland 5, Cincinnati 4; Philadelphia 6, Boston 9; Pittsburg 4, Chicago 6; New York 0, Brooklyn 5.

American Association—St. Louis 3, Brooklyn 4; Toledo 3, Athletics 7; Louisville 11, Syracuse 2; Columbus 10, Rochester 3.

NOTES.

The Mansfields won the pennant in the Tri-State league contest.

The Lakeside base ball club defeated the Bourbons yesterday by a score of 23 to 18.

The Fort Wayne Stars yesterday defeated the Brames in a game of ball by a score of 32 to 7.

The Golden Eagles defeated the Irishtown Thieves in a game of ball yesterday by a score of 27 to 6.

The Easterners and the Royals played a game of ball yesterday, which resulted in favor of the former by a score of 21 to 18.

The Cigarmakers and Salvator base ball clubs played a game of ball yesterday, which resulted in favor of the latter by a score of 12 to 8.

The Electric base ball club met a nine of Murray's foundry, Saturday afternoon, and won by a score of 19 to 5. Hirt pitched for the Electrics and Gaffney for the Murray's.

A game of base ball was played yesterday between the Young Kaisers and Rusty and Spy Runs and Rustys for the championship of Geary's Museum and ten tickets to each of the winning clubs. The Rustys and Spy Runs played the first game, the Rustys winning by a score of 8 to 7. The second game was between the winners and the Young Kaisers, the Rustys again winning by a score of 14 to 13, thus winning the bundle of tickets.

The Wieners were defeated by a score of 7 to 5 in favor of the R. R. B's of Ewing's grove. The battery for the former club was Dumeyer and Braden, and for the latter, Yates and McDonald.

The city league games were well attended yesterday. The game between the Pilseners and Dortmunders resulted in a victory for the former by a score of 15 to 12. The Kaisers defeated the North Waynes 9 to 4.

A tame game, advertised as "Scott's benefit," was played before an audience of fifty spectators at League park Saturday afternoon. The contesting clubs were the Athletics and a picked nine of which Scott and Ferris formed the battery. Joss and Peltier formed the battery for the Athletics. At the end of the eighth inning, with a score of 19 to 8 against them, Scott gave it up and the game was called. Mike Belger umpired the game and gave some clean decisions.

THE HIDDEN HAND.

DOWN TO BUSINESS.

A General Committee Meeting of the Council to Discuss Water Works Extensions.

The committees on finance, street, water works and others, will hold individual meetings this evening, after which they will meet as a general committee with the water works trustees. The object of the latter meeting will be to discuss the propriety of extending water mains. In other words the councilmen will get down to business so that at the council meeting to-morrow evening they can recommend the laying of water mains on improved streets, where such improvement is lacking.

There is available for this purpose something over $24,000, the amount originally set aside for building and equipping several engine houses, which, however, it was afterward decided to pass over another year. That the council will order the work done is not doubted and it seems that this much-talked-of, grand and needed improvement is about to become a reality.

JOE CLARK DEAD.

The Death of the Well Known Tailor Occurs at Kent, Ohio.

It was with a feeling of sadness and regret that the news was received in this city yesterday of the death of Joseph M. Clark, which occurred early Sunday morning at Kent, Portage county, Ohio. The deceased will be remembered as the popular, generous and kind gentleman, who for many years followed the merchant tailoring business in this city and which business has to this day been conducted under his name. On May 28, 1888, Mr. Clark suffered a stroke of paralysis, the entire left side being rendered useless. He was taken to the home of his sister at Kent, O., afterward to a Chicago hospital and thence to Kent again. He never recovered from that attack. Shortly after going to Kent he was married, the ceremony being performed while he was yet unable to sit up, and his wife, to the hour of his death, proved herself a devoted and loving nurse. Mr. Clark was born in Washington county, Pa., fifty-six years ago and at the age of six months was left an orphan.

At the age of twenty-one he came to Fort Wayne and associated himself with Wade Shoaff, then and for years afterward the leading tailor. Young Clark soon established a business of his own and built a reputation upon his skillful work. He became successful, having among other investments a block on Clinton street under surveillance, was arrested again by Officer O'Connell. She had lured into her room a young fellow named John Frawley, who was none the better off for the liquor inside of him. The charge against him was intoxication, and his fine was paid. Eliza, although a queen with thousands at her disposal, agreed to go to jail, cogitate and reform.

John Ruffer was arrested for drunkenness, by Officer Rohlo. It being the second offense, he was sent over for fifteen days.

IT WAS FATAL.

Christian Fuhrman Dies From the Effects of Fearful Injuries.

Christian Fuhrman, a farmer who was injured by a buzzard emery wheel one day last week, died Friday from his injuries. A widow and family survive him. The funeral took place from the house in Marion township yesterday afternoon, and was largely attended.

The railroad strike in the east is a serious interruption to business.

The census returns will probably give Indiana a population of 2,221,822.

Rev. R. M. Barns delivered an interesting sermon yesterday morning at the Wayne street M. E. church on the subject, "From Gas Wells to Snow Fields."

With the president and Secretary Noble, Uncle Jerry Rusk, the secretary of agriculture, is attending the national G. A. R. encampment at Boston this week. Can it be that Jerry, too, has the presidential bee in his bonnet?

The program for the coming week in the senate includes the tariff, river and harbor and probably some further discussion of the arid law and irrigation questions. The tariff is the order of the week until Friday, when the river and harbor bill is to come up for consideration.

The democrats of Laporte county met in delegate convention Saturday at Michigan City and nominated the following county ticket: For representative, William Fowler; sheriff, George W. Reed; auditor, F. G. Lambke; treasurer, S. S. Boscoman; recorder George F. Swan; surveyor, James D. Norris; coroner, A. J. Mullen; commissioners, D. F. Barchom, D. S. Hart and Roswell K. Bennett.

Wm. H. Kilver, of Chicago, who spoke in this city last May, was chosen president of the United Brotherhood of Carpenters and Joiners of America at its convention held at Chicago Saturday. He was chosen on the second ballot, after President Rowlands had declined to serve for another term, and his election was made unanimous. General Secretary McGuire was re-elected to the position by acclamation and W. C. Wellin, of San Francisco; J. H. Burke, of Brooklyn; Hugh McKay, of Boston, and Charles Owens, of New York, were elected vice-presidents.

The Iowa democrats speak with ringing words on the tariff question. They say in their platform: "We are in favor of a tariff for revenue only—a tariff reduced to the lowest rate consistent with the needs of an economical administration of the government. Liquors, tobacco and all luxuries should be made to bear, as far as possible, the burdens of taxation and the necessaries of life should, so far as possible, be relieved. We oppose the McKinley bill as an abuse of the taxing power in favor of the wealthy corporations, pools and trusts by which our manufacturing interests are so largely controlled. It especially discriminates against the agricultural interests of the country by compelling the farmer to buy what he needs and sell what he produces in monopolized markets. We are in favor of commercial reciprocity, not alone with the Spanish states of South America, but as well with other countries whose markets are open to our products."

THE FARMERS' MEETING.

The joint meeting of the Farmers' alliance and the labor organizations, which was held in this city last Saturday afternoon, was attended by a number of the representatives of these orders and was an interesting and enthusiastic meeting. It was called to order at 10 o'clock by Mr. Stephen Heath, president of the Patrons of Husbandry. Mr. Thomas McKee, of the Farmers' alliance, in stating the object of the meeting, said that it was called for the purpose of learning the views of the various labor organizations on the subject of united action in matters of especial and vital interest to laboring men. He also stated that it was the duty of his class to protest against the doctors and lawyers holding all the offices and making the laws of the land. A committee on resolutions was appointed and Mr. C. L. Drummond was chosen secretary.

At the afternoon session the secretary read the following resolutions drafted by the committee appointed in the morning:

Whereas, Many reforms are needed and we ask for legislation and enforcement of laws to bring them about. We demand the passage of these measures not in the name of any party, but in the name of justice, in the name of the people.

Resolved, That aliens should be prohibited by law from owning real estate in the United States.

Resolved, That we favor the enactment of a law by the state legislature of Indiana, that the mortgagor and mortgagee be regarded as joint owners of real estate for the purpose of taxation.

We demand an economical administration of state and county expenditures.

We demand that the salaries of state and county officials should be cut down to correspond with the depreciated value of farm products.

We demand that the county officials shall be paid fixed salaries instead of fees.

We are opposed to any further extension of the state debt as against public welfare, and we demand such an administration of state affairs as shall lead to the speedy payment of its debt.

Other resolutions embodied demands that taxation, national or state, shall not be used to build up one interest or class at the expense of another; that the laws against bogus butter, lard and other products be rigidly enforced; that the legislature give relief in the matter of dealing with those engaged in the fraudulent collection of notes; that there be legislation respecting the liquor traffic, that will prevent it from increasing in taxes; and that the United States senators should be elected directly by the people.

The resolutions were unanimously adopted.

A communication was received from the Trade and Labor assembly, inviting the farmers' alliance to attend and participate in the Labor Day celebration, September 1.

The question of placing a county ticket in nomination was discussed with considerable enthusiasm. A number of those present vigorously opposed the idea, declaring that such an action would only be suicidal. One asserted that if a ticket was put in the field he would under no circumstances support it. The measure was defeated by a vote of fifty to thirty.

The matter was subsequently referred back to the various labor organizations, and will be again taken up at the next meeting, which is to be held September 11.

The adjourned meeting may or may not result in the nomination of a county ticket. We again insist that the democratic party is the true and staunch friend of the farmers and the laboring masses. Its principles and the legislation which it advances in the state legislative halls and on the floors of the national congress are such as will give them the relief from oppression that they seek, and no democrat, especially, should be drawn from his party to unite with others in supporting candidates not on the regular democratic ticket. Our county ticket, already nominated, is an excellent one. Every candidate on it is worthy of support and there should be nothing done that will in any way endanger the success of the men who have been nominated for the state legislature. They will have the choosing of a United States senator and only such men as will support the democratic nominee for this high and important office should be elected to the state legislature. Let not our farmer friends or the members of the various labor organizations be deceived. The republicans will encourage the movement to place separate legislative candidates in the field in order that they may succeed in the senatorial contest, but no democrat should be deceived by it, for to give the movement support would not only endanger success, but may result in sending a republican to the United States senate. This is the scheme the republicans have in view in encouraging the new political movement.

A VOICE FROM KANSAS.

The Western farmer has no interest whatever in a protective tariff, says the Atchinson, Kan., Champion. His interest rather lies in the direction of free trade—of access to all markets—wherever his products may be in demand. It is for his interest to sell what he raises wherever in all the wide world he can find a purchaser, and thus provide himself with the means of disposing of his surplus crops. Not only is he vitally interested in securing all possible markets, but equally so in buying what he needs as cheaply as possible. Sell where he may, and buy at the lowest figures; this, selfish as it may seem, is what most concerns the Western farmer.

Free trade will give the west the markets of the world, and an opportunity to buy what it requires at less than half it now pays for these same articles.

Lumber, hardware, furniture, clothing, groceries and agricultural implements—these the west needs principally. Free trade will bring these things to us at figures far below protective prices.

In all this one speaks solely from the standpoint of self-interest. It is with states and sections as with individual citizens—self-preservation is the first obligation. A due regard to our sectional preservation, our territorial interest, demands the adoption of free trade—commercial reciprocity with all nations. The east, as we have stated, has grown dangerously rich by means of a protective tariff; now let the west assert itself and use the means at its command to change its economic policy to one more conducive to sectional welfare.

The question is broader than party lines. It is more vital than mere formal political organizations, and more essential than the dominance of any particular set of politicians, for it touches our life and is indissolubly interwoven with our existence.

Protection continued twenty years longer and the west, with its vast agricultural possibilities, would be a pauper bound hand and foot. Let us who live here in the west be fools no longer, but let us exercise our common sense and protect our own interests by obtaining, just as quickly as possible, the freest trade, with all its attendant benefits.

The peculiar enervating effect of summer weather is driven off by Hood's Sarsaparilla, which "makes the weak strong."

Banana sandwiches are now popular at picnics.

The leading question now is: "Are you provided with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as a safe guard against an attack of bowel complaint during the summer months?" No family can afford to risk being without this invaluable medicine during the hot weather. It is almost certain to be needed, and is a friend indeed when required, as it never fails, and is pleasant and safe to take. 25 and 50 cent bottles for sale by druggists.

MAJOR M'KINLEY SPEAKS.

He Thinks Congress Will Hardly Adjourn Before Sept. 15.

Senator Aldrich has said that by August 23 the senate will have disposed of the tariff bill. Major McKinley, gives the senators until September 1 to dispose of it. He says:

"If the bill is sent over to the house by September 1 I do not think it will require more than a week to dispose of it there. It is impossible to estimate the time that will be consumed by the conference committee, but another week would not be an extravagant allowance. We would, of course, save a great deal of time if, when the bill is received back by the house, the motion to non concur without debate could be passed. That, however, does not seem at all likely."

"How much time will the senate require to dispose of the federal election bill?"

"I have no means of guessing. There is no reason, however, why that measure should not at once be taken up when the tariff bill is passed. The two houses could then proceed together and much time would be saved."

"You do not look, then, for an adjournment before the middle of September?"

"Hardly; though, of course, no one can tell what may arise to expedite or delay congressional work. Nothing that is necessary can be left undone."

WHAT IS SAPOLIO?

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry. To use it is to value it.

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

HAIR ON THE FACE, NECK, ARMS OR ANY PART OF THE PERSON

QUICKLY DISSOLVED AND REMOVED WITH THE NEW SOLUTION

MODENE

AND THE GROWTH FOREVER DESTROYED WITHOUT THE SLIGHTEST INJURY OR DISCOLORATION OF THE MOST DELICATE SKIN—DISCOVERED BY ACCIDENT.

IN COMPOUNDING, an incomplete mixture was accidentally produced in the back of the bowl, and on washing it was observed that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, and so delicate in its action, and so simple and one can use it. It acts mildly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used here or abroad. It is truly scientific, and in over stylished much wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; if heavy, two or more applications, according to the depth and color of the beard or hair on any part of the person, such as the beard on ladies may require two or more applications before all the roots are destroyed, when the growth will be perfectly and forever removed. The slightest injury or unpleasant feeling will result from its use, and the delicate skin of infancy or childhood, which is subject to every affection, is rendered as soft as velvet. SOLUTION SUFFICIENT FOR SEVERAL applications, with full directions, sent to any address on receipt of price, $1.00 per bottle. Recommended by physicians. Beware of counterfeits. Genuine only when bearing the name and address of the proprietors. Send money by letter, with your full address written plainly. Correspondence strictly private. Testimonials and circulars free. Sold by druggists, or sent by mail, safely packed from observation, on receipt of price. Modene sent by mail, to safely reach destination in all parts of the world. Modene will remove a mole or wart as easily as the hair. Ladies who find an embarrassing growth of hair coming, should use Modene to destroy the roots

J. Worman, engineer on the Pittsburg road, is off duty on account of sickness.

J. W. McCoy, of the Pittsburg round house, has reported for duty after a sickness.

Jerry Connors and Ed Starke, sr., of the Pittsburg blacksmith shops, are off duty to-day.

J. T. Snyder has been transferred from the Pittsburg round house to the paint shop office.

Wm. Kanning has resumed his position in the Pittsburg car shop after a few days sickness.

William Brums has resumed his position at the Bass boiler shops, after a few days' sickness.

E. H. Miller, of the Lake Erie and Western offices at Indianapolis, was in the city yesterday.

L. H. Slagle, engineer on the Grand Rapids road, has reported for duty after a few days' absence.

Charles McElfatrick has resumed his position in the Pittsburg machine shop, after a week's illness.

Engineer T. Drake, of the Pittsburg road, is off duty on account of the serious illness of his son.

Frank Sauerwein, of the Pittsburg blacksmith shops, is the happy father of a sweet-faced baby girl.

Passenger Engineer William Turner, of the Pittsburg road, will leave to-day for a trip through Kentucky.

Ed. Sister, formerly of the Pittsburg blacksmith shop, has accepted a position in the Bass moulding rooms.

T. McCarthy, fireman, and J. Grable, engineer, on the Pittsburg road, are off duty on account of sickness.

Stephen Shallenberger, the Pittsburg car inspector, has been promoted to assistant yardmaster at the old yards.

C. W. Turner, of the Pittsburg offices, was the pitcher for the Frenchtown Runts in their game yesterday.

J. Boden and F. H. Whitney, engineers on the Pittsburg road, have reported for duty after a week's illness.

Henry Hagerman and William Cody, of the Bass molding rooms, took a pleasure trip out in the country yesterday.

S. C. Ring and E. S. Klinedinst, firemen on the Pittsburg road, have reported for duty after a few days' sickness.

Chas. Hassler, fireman on the Grand Rapids and Indiana, has been transferred from the northern to the southern division.

Henry Bickness has resumed his position in the Pittsburg blacksmith shops, after a week's absence on account of sickness.

Charles Miller, of the Bass moulding rooms, will go to Huntington to-morrow to spend a few days with friends and relatives.

D. H. Wilbert and W. Longhenry, firemen, and B. F. Campbell, engineer, on the Pittsburg road, have reported for duty after a sickness.

F. A. Tegtmeyer, of the Pittsburg round house, has purchased a very valuable trotting horse. The boys say he gave $5 dollars and a pair of boots for the animal.

Daniel McCarthy, of the east Pittsburg shops, gave a pleasant party at his home on Lillie street, Saturday evening. A large crowd was present and a pleasant time was had.

Wm. McClubbin, teamster at the Bass works, left to-day for New York, from where on Wednesday he will sail on the steamer Germania for Scotland on a two months' visit. He will return to this city.

Assistant Superintendent J. W. Stewart, of the Block signal system at Pittsburg, Pa., spent Sunday in this city. He was formerly assistant master mechanic of the Pittsburg shops in this city.

The monitors of the Bass foundry defeated the helpers in a game of ball yesterday morning by a score of 11 to 4. One of the features of the game was the beautiful playing of Merrill of the moulders nine. The battery for the moulders were Doriot and Schilling, and Trainer and Eckert were in the points for the helpers.

Sam McAfee, of the Pittsburg blacksmith shops, was up the river on a fishing trip Saturday afternoon and reports a fine catch. He says he would have caught more, only he lost the bait in the river.

The infant child of W. H. Baker, of the Pittsburg machine shop, died Saturday afternoon at his home at 97 Montgomery street. The funeral occurred at two o'clock this afternoon. Mr. Baker has had a great deal of sickness in his family lately, his wife being hardly able to leave her bed for almost six months. He has the sympathy of a host of friends in his sad bereavements.

William Craig, spoke turner at the American wheel works, had the fingers of his left hand badly injured Saturday morning. He was standing near a smoothing belt and becoming overbalanced threw out his hand and it was caught between the belt and a board. The belt was going at a high rate of speed and it was some time before he could extract it. The nails on four of his fingers were torn off and the ends of the members were badly lacerated. Dr. McCausland attended him. It will be several weeks before he can resume his position.

Mr. Charles Truman, of the Pan Handle, returned a few days since from a visit of several days with friends at Van Wert, Ohio, says the Logansport Journal, and while there he took pains to inquire into the details of the killing of Engineer Vandevander by Fireman Woodhouse at that point some time since. Mr. Truman says that public sentiment, which was very much against Woodhouse at first, has now shifted, and the tide of public opinion has set in in his favor. Vandevander was known to be very ugly when in liquor, as he undoubtedly was at the time he lost his life, and many persons are of the opinion that Woodhouse acted in self-defense in a large degree, and had he not killed the engineer, the latter would have killed him. The case comes up for trial in October at Greenville.

GROWTH OF THE CHURCH.

Plain Refutation of the Assertion That Christianity is Losing Ground.

(New York Herald.)

The Independent has gathered some valuable and interesting statistics showing the strength of the various Christian churches of the United States and their growth during the past year. In some cases the figures are estimates, but our contemporary believes that on the whole the results "very closely approximate the truth."

From these it appears that there are in the United States 151,201 churches of all denominations, 106,300 ministers and 23,000,000 members. During the year there has been an increase of 6,000 churches, nearly 4,900 ministers and nearly 1,090,000 members.

The most numerous denomination is the Roman Catholic, with its 7,500 churches, 6,300 priests, etc., and 8,277,000 population, of whom 4,676,000 are estimated to be communicants.

Then come the Methodists, with, in round numbers, 4,960,000; communicants; Baptists, 4,292,000; Presbyterians, 1,220,000; Lutherans, 1,080,000; Congregationalists, 391,000, and Episcopalians, 480,000.

The increase of the Catholic population during the year was 421,700. The estimated gain in Catholic communicants was over 238,000.

The growth of Protestant membership was 668,000. The Methodists gained more than 256,000, the Baptists more than 210,000, the Lutherans 98,000, the Presbyterians nearly 49,000, the Congregationalists more than 16,000 and the Episcopalians about 9,500.

The secession of new members was even larger than these figures, since in every denomination there were deaths of members whose places were filled by new acquisitions. The number of deaths in the Methodist Episcopal body, for example, was reported at 28,-300.

This is a highly satisfactory and encouraging showing to all who have the welfare of the church at heart. A gain of nearly eleven hundred thousand in membership in one year, with a corresponding increase in the number of churches and ministers, indicates that Christianity is marching on with no uncertain stride. As our contemporary well says, "It is in itself a most overwhelming refutation of the assertions we hear now and then from various quarters that Christianity is losing its hold upon our people and that our churches are declining."

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

DUKE FERRY.

A Distinguished Citizen of Tacoma Visits His Old Home.

For some days past the Avaline numbered among its guests Clinton P. Ferry and daughter, May, of Tacoma, Wash. Mr. Ferry came east to meet his daughter, who is on route home from Switzerland, and stopped here to visit his mother, Mrs. Caroline Ferry, widow of Lucien P. Ferry, who resides at 119 West Washington street, and the family of his sister, Mrs. R. D. Boyles, of Minor street. Mr. Ferry was here for a brief period a year ago, when he had completed a trip around the world. He was a school-mate of ex-Mayor Chas. F. Minhler, who with many others will recall him. Himself and daughter will visit Logansport this week, returning here before their final departure for home.

The Tacoma Illustrated has a timely article on this gentleman's career, of which the following is a brief extract:

"Mr. Ferry is a self-made man, born at Fort Wayne, Ind., in 1836. After the age of twelve years he took upon himself his own education, meanwhile being his own support. He left school when nineteen years old, having passed through a commercial college, and became cashier of the Toledo, Wabash & Western railroad, leaving his position two years later to go the Pacific coast, where he spent about twenty years between Portland and San Francisco. He located in Tacoma in 1868, when that place was little less than a forest, and invested largely in real estate. His investments were looked upon then as pure acts of folly, and thus it was that he was dubbed the "Duke of Tacoma," a sobriquet which he holds to the present day. Mr. Ferry is of French descent, his grandfather having been chef de battalion under Napoleon the First. Much of the real estate bought early by him is the finest property in Tacoma, and is still held by him. He is active in public interests, is not a politician, and uses his money and influence in all good acts of charity and public good. His zeal, vitality, perseverance, honor, polished manners and good fellowship, have secured for him the best legacy any man can wish—firm and devoted friends."

An old soldier's story: In the late war I was a soldier in the First Maryland volunteers, company G. During my term of service I contracted chronic diarrhoea, since then I have used a great amount of medicine, but when I found any that would give me relief they would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I use it and will say it is the only remedy that gave me permanent relief and no bad results follow. I take pleasure in recommending this preparation to all of my old comrades, while giving their services to their country, contracted this dreadful disease as I did, from eating unwholesome and uncooked food. Yours truly, A. E. Bonding, Halsey, Ore.

Peculiar

Peculiar in combination, properties, and proportion of ingredients, Hood's Sarsaparilla possesses the curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy, Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Doses One Dollar." Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown. Sarsaparilla and has won for itself the title of "The greatest blood purifier ever discovered." Peculiar in its "good name at home,"—there is more of Hood's Sarsaparilla sold in Lowell than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad. Peculiar no other preparation ever attained so rapidly or held so steadfastly the confidence of all classes of people. Peculiar in the brain-work which it represents, Hood's Sarsaparilla combines all the knowledge which modern research has developed, with many years practical experience in preparing medicines. THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

No. 7,000. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five LARS.

$578,345 00/100 DOLLARS. DEC 29 1889.

CERTIFIED. Payable through New York, Clearing House, N. Y.

—E. C. POTTER & CO.— E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus consuming the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

The Boston Store

Shows the results of a successful sale. Our object has been accomplished. The Odds and Ends of Summer Goods are gone, and while we still expect to sell some warm weather goods, they will be different.

We open up this week, New Challies, Lawns, Ginghams, Prints, in entirely new designs, just a little darker than the strictly summer goods, and while, just the thing for present use, they can be worn until cold weather.

We have received some extra good value, in All Wool Black Dress Goods. It will pay to buy a dress now, if even for future use. The goods shown in this department at 50c., per yard are superior to anything we have ever sold for the money, and the higher grades will be found correspondingly cheap.

Our Patent Adjustable Fly Screens for windows seem to be a long felt want.

How often people suffer the annoyances that multitudes of flies and mosquitos in the house create, not because they cannot afford fly screens, but because as a matter of principle they won't buy them while living in a hired house, to leave them for the use of the next tenant. All this is now changed. The screens we sell will fit almost any window. Come and see them, and if you don't buy you will at least compliment the inventor.
